

# Byblós bar + restaurant

# Bar

## MENU

Byblos, considered by many historians to be the oldest continually inhabited city in the world, is a bustling town, an international thoroughfare found on the Mediterranean coast of modern day Lebanon.

The Phoenicians who founded ancient Byblos used innovations in naval technique and navigation to become the first masters of the sea. They used their seafaring skills to build rich trade routes throughout the region and founded a rich and powerful empire.

The port of Byblos became their cultural and economic capital and as the city grew it became a melting pot, rich in new ideas and advances.

The rich cultural heritage and delight in adventure is the foundational philosophy of our drinks selection. An extensive array of fine wines, premium spirits and boutique beers, permit an international exploration of another kind. Cocktails fusing exotic fruits, flavours and flambé await the daring of your own intrepid tastebuds.

We hope you enjoy the Byblos bar experience!

# Lebanese Wine

BY THE BOTTLE

Lebanon boasts one of the oldest traditions of producing (and enjoying!) quality wine. The ancient Phoenicians were considered masters of wine-making, their produce and expertise was exported around the Mediterranean for thousands of years -much of which passed through the ancient sea port of 'Byblos'.

We invite you to enjoy the many high quality expressions of modern Lebanese wine we are proud to offer you here at Byblos.

Kesak! | Cheers!

# Arak

Arak has a beguiling aniseed flavor and freshness that cleanses the palate and aids digestion. It is often served as an aperitif and then as the perfect accompaniment to a classic selection of mezze, the array of dishes with contrasting aromas that starts many lunchtime or evening meals in Lebanon. Arak works particularly well with the mezze dishes that include parsley, raw tomatoes, lemon, mint, and garlic – flavors that are sometimes harder to match with wine.

Arak is typically made from grapes, Obeidy or Merwah, an indigenous variety to Lebanon. Though Arak in its pure form is colorless, the clear liquid is aniseed-flavored. Aniseed is added to the distilled alcohol during the second of three distillation processes. After Arak is distilled it is rested in clay for up to 3 years then and only then is it ready for bottling.

## HOW TO MIX ARAK

Best way to mix Lebanese Arak is 1/3rd arak with 1/3rd water, then add 1/3rd ice.  
add one serve of Arak to your glass  
Mix with water, the arak should go cloudy. This is the water reacting with the oil from the aniseed.  
Finally add ice to chill down before drinking  
Enjoy with family and friends

Arak Brun 53%: 50mL | 250mL | Bottle

Arak Brun is the world's most famous arak. It is produced inside a hundred-year-old cellar in the very prestigious Domaine des Tourelles. Arak Brun is processed traditionally using a three-stage distillation. The crystal clear arak is then aged inside old clay amphorae situated in the Property's cellars. This pure traditional process grants Arak Brun a fine softness

Ksarak: 50mL | 250mL | Bottle

The arak of Chateau Ksara is a truly authentic expression of Lebanon's traditional, anise-flavored spirit. It is produced in a specially-designed alembic still using an innovative technique to assure that only the heart of the distillate, the real "pure flower", is used. Finally, following ancestral norms, Ksarak is matured for two years in clay amphora from Beit Chebab before it is at last ready for consumption.

Massaya: 50mL | 250mL | Bottle

Massaya Arak is produced with the finest ingredients using traditional, labor-intensive methods. Indigenous Obeidi grapes are fermented for about two weeks, then double distilled in traditional Moorish lid copper stills over vinewood embers. On the third distillation, the spirit is macerated with organic green aniseed from the Syrian slopes of Mount Hermon, which imparts a distinctive aroma and flavor. Finally, the spirit is aged in traditional clay amphora for two years, lending a subtle color and a notable maturity.
